FYI: On December 13, 2007, TCEQ issued a public notice indicating that Uranium Energy Corp.'s application was deemed complete and is under review, and announced a public meeting on the application for January 24, 2008. The attached maps show an outline of the proposed mining site and its location on the NE corner of the intersection of highways 183 and FM1961. As you may recall, Ms. Margaret Rutherford and others have written EPA regarding opposition to this project.
